"

I always keep up-to-date with the latest technologies and am passionate about learning and applying them to bring value to customers and users.

I am confident in my ability to communicate effectively. Combining creativity and passion, I will continue to learn and contribute to the project in the best.

Over the next 2-3 years, my goal is to attain a Middle Frontend position.

Work experience

Feb 2023 ⁻ May 2023
Internal Project
Frontend Developer at NFQ

It is an internal project and it has been designed from the ground up to make career progression and personal growth fun and engaging through gamification and tangible rewards. It is built to enhance or even replace the usual cycle of performance reviews.

Technologies used
Vuejs, Typescript, Naive UI, TailwindCSS

Jan 2022 ⁻ May 2023
DoctorCare
Personal Project

A website that supports users to schedule medical appointments online without the need to physically go to the clinic and wait for a queue number.

Technologies used
Reactjs, Nodejs, Postgresql, Bootstrap 4
